Project Stage

Development

Project Team:

When you join our team, you'll be immersed in a culture where teammates always help each other achieve better results. We believe that together we are greater and that we can find brilliant solutions by sharing ideas.

Requirements:

- 4+ years of strong **JavaScript** development experience
- In-depth knowledge of **Angular**
- In-depth knowledge of **Node.js**
- In-depth knowledge of frameworks available for Node.js (such as **NestJS**, Express)
- Experience with **MongoDB**
- Strong analytical skills
- Excellent interpersonal and written/verbal communication skills
- Willingness to remain up to date on all current best practices, trends, and industry developments
- Strong focus on delivering value rather than pure engineering

English level:

Intermediate +

Responsibilities:

- Writing tested, idiomatic, and documented JS
- Performing code review and UI optimization
- Collaborating with cross-functional teams to analyze, design, and ship new features
- Participating actively in discussions, presentations, and decisions about front end development, web applications, mobile apps, etc.
- Working on bug fixing and improving application performance
- Constantly improving your level of skills and qualifications
